Declaration of conformity

Declaration of conformity of the product Silicone Moulding belt

Created by:	Approved by management:	Version:	Date:	Repl.:
O. Carstensen	B. Funke	07	18.01.2023	06

The material was made according to Recommendation XV. Silicones from the "Federal Institute for Risk Assessment" examined. The requirements are met in contact with food at a maximum of 2 hours / 70 ° C. Peroxides are not detectable.

According to the results of the tests carried out, there are no objections to the use of the material as a material as consumer goods for contact with foodstuffs within the meaning of the German Food and Feed Code (LFGB) under the above-mentioned contact conditions. The material has been tested in accordance with the requirements of Regulation (EC) No.2023/2006 of the good manufacturing practice for materials and articles intended to come into contact with food.

FDA: The material corresponds to the U.S. Food and Drug Administration according to §177.2600 (Rubber Articles Intended for Repeated Use) and §175.300 (Resinous and Polymer Coatings).

Extractable content	Parameter	Recommendation	Result
Water	Testing by complete immersion	< 0,5%	< 0,2%
Acetic acid 3%	Testing by complete immersion	< 0,5%	< 0,3%
Ethanol 10%	Testing by complete immersion	< 0,5%	< 0,2%
